WELCOME

In the Natural Reserve " *River Ciane and Saline di Siracusa* " of the Sicilian Region

established with DA . n. 86 of 14.03.1984 and entrusted to the Free Municipal Consortium of Syracuse

Deed of address Regional Department of the Territory and the Environment - S.3 / DRA UO 3.3 prot. n. 0040156 of 25 . 06 .2018

- The Reserve was established in order to protect a natural area of botanical, landscape and naturalistic interest.
- Visiting the Reserve implies acceptance of the risks deriving from the natural danger of the places.
- There is a Regulation that must be read in order to know what can be done and what cannot be done in the Reserve.
- The Managing Body declines all responsibility in the event of accidents and injuries deriving from non-compliance with the Reserve Regulations and / or the indications provided for its use, from any imprudent or negligent behavior, from accidental and unpredictable natural events.
- Inside there are no medical assistance points, water points, refreshment points and toilets.
- Due to the characteristics of the place, access is not recommended if you have motor and / or balance difficulties, heart and / or breathing problems.
- Due to the presence of animals and / or plants with potential allergenic factors, access is not recommended if you are an asthmatic person and / or with allergies to pollen, insect bites etc.
- If you encounter or spot wild animals, enjoy the privilege of seeing them in their habitat. Leave them quiet, do not approach, avoid screams and sudden and sudden movements. Do the same even if you encounter pets and / or grazing animals.

Good Rules of Use of the Oriented Nature Reserve "River Ciane and Saline di Siracusa" for a more aware and enjoyable experience

- Wear suitable clothing for the season and places:
 - long and practical trousers, sun hat, rain / windproof jacket;
 - closed and comfortable hiking shoes. Heels, wedges, flip flops, beach slippers or the like can cause sprains and / or falls.
- Follow the specially prepared paths and respect the indications of the information and monitoring tables. Some areas of the Reserve, even if not fenced, belong to private individuals.
- Do not touch, collect and / or ingest any type of vegetable or parts of it: it may contain toxic substances.
- Do not lean on the fences and do not cross them.
- Do not enter the natural cavities, unless they are specially marked as a place of interest.
- In case of adverse weather conditions (storms, strong wind, high temperatures, ice, etc.), it is imprudent to access the Reserve. In case of fire risk, do not go hiking.
- Do not leave vehicles in areas not used for parking or in any case unsuitable for parking.
- Respect the Reserve Regulations. In particular, you are not allowed to hunt, fish, introduce weapons, capture and / or disturb animals, destroy, damage and / or remove plants of any species and type, or parts of them, practice camping and bivouac, light fires, abandon waste.

ACCESS FOR USE AND LEISURE ACTIVITIES IS FORBIDDEN:

- **IN THE CASE OF YELLOW, ORANGE AND RED HYDROGEOLOGICAL WEATHER ALERT ISSUED BY THE REGIONAL CIVIL PROTECTION; RED FIRE RISK WARNING**
- **IMMEDIATELY AFTER A SEISMIC EVENT WARNED AND CONFIRMED BY THE NATIONAL INSTITUTE OF GEOPHYSICS AND VOLCANOLOGY (INGV) AND IN THE FOLLOWING 24 HOURS;**
- **IN THE EVENT OF ONE OF THE ABOVE CIRCUMSTANCES, IT IS ALSO COMPULSORY TO MOVE AWAY FROM THE DANGEROUS AREAS.**
